# HIGH QUALITY GERMAN STAINLESS INSTRUMENTS CRAFTED FOR EYE CARE PROCEDURES

Bruder Healthcare provides a line of ophthalmic surgical instruments and accessories for medical professionals working to relieve eye discomfort.

We provide a variety of state-of-the-art forceps and paddles carefully crafted for eye care procedures including:

- Expression of the Meibomian glands
- Punctal plug insertion/removal
- Precise eyelash removal
- Bandage lens removal
- MGD eyelid debridement and more

Each instrument is reusable and autoclavable. View our instrument sanitizer and trays to prolong instrument life.

## BRUDER Jeweler Forceps

Available in 4 popular sizes. German stainless.  
4 3/4" (120 mm) Length.

BRUDER Jeweler Forceps #3 - Item #98703

BRUDER Jeweler Forceps #4  
Item #98704

BRUDER Jeweler Forceps  
Fine # 5  
Item #98705

BRUDER Jeweler Forceps #7  
Item #98707

# BRUDER Meibomian Gland Expression Instruments

Prior to an expression procedure, we recommend applying a warmed **Bruder Moist Heat Eye Compress** (#34160) for 10-15 minutes to prepare the Meibomian glands.

## COLLINS™ Expressor Forceps

Item #98610

**For mild or aggressive expression of the Meibomian gland.** 3  $\frac{3}{4}$ " (95mm) Length. Oval forceps with closed paddles. 10mm diameter, 1mm thick. Angled at 12 degrees for easy lid access. Single hand, easy-grip handle. German Stainless.

Angled for easy lid access

## LIVENGOOD™ Expressor Paddles

Item #98620

Item #98630

**For mild or gentle expression of the Meibomian gland.** 3" (75mm) Length. Oval 10mm Diameter, 1mm Thick paddles. Knurled handle. German Stainless.

Available angled (12 degrees) or straight

# BRUDER Meibomian Gland Expression Instruments

## BRUDER Roller Expressor

Item #98611

**For Meibomian Gland Expression.** 4 3/8" (110mm) Length. Provides quick and efficient multi-gland expression. Rollers feature a special coating to prevent slippage. German stainless.

Rollers feature special non-slip coating

## BRUDER Rectangular Expressor

Item #98612

**For Meibomian Gland Expression.** 4 3/8" (110 mm) Length. Similar to the Collins Forceps multi-gland expressor (#98610) except designed with rectangular paddles instead of oval. German stainless.

Angled for easy lid access

## BRUDER Long Nose Expressor

Item #98613

**For Meibomian Gland Expression.** 4 1/4" (108 mm) Length. Designed with long narrow paddles for multi-gland expression. Angled for easy lid access. German stainless.

Long nose design for more gland coverage

# BRUDER Specialty Instruments

## KARPECKI Debrider

Item #98653

**For debriding.** 4 3/4" (120mm) Length. Slightly curved tip with a "crisp" edge on both sides. The edge is just right to easily remove keratin by sliding the instrument, curve forward, along the eyelid in a single direction. German stainless.

Crisp, curved edge

## BRUDER Epilation Forceps & KARPECKI Epilation Forceps - Delicate

Item #98650

Item #98657

**For precise eyelash removal.** These forceps feature non-slip jaws/tips and an easy-grip, non-slip handle. German stainless.

Non-slip jaws grip tightly

BRUDER Epilation Forceps. 4 3/4" (120mm) Length with 1.5mm tip.

KARPECKI Epilation Forceps - Delicate. 4" (100 mm) Length with 1.0 mm tip.

## KARPECKI Bandage Lens Forceps

Item #98652

**For bandage lens removal.** 4" (100 mm) Length. Many clinicians have experienced the accidental removal of healing epithelium while removing a bandage contact lens. Problem solved with the KARPECKI Bandage Lens Forceps. The instrument features a narrow, rounded tip to break suction at the edge of the lens. Tips feature a special coating instead of serration to ensure that the bandage lens will not slip when being removed. German stainless.

Special non-slip coating

# KARPECKI Punctal Plug Instruments

## KARPECKI Punctal Plug Forceps

Tips feature small grooves to grip plugs

**For punctal plug insertion and removal.** 4 3/8" (110 mm) Length. Grooves on the inside tip hold the plug solidly in place during the procedure. The instrument can be turned 90 degrees to a flat side to push the plug in place if necessary. German stainless.

## KARPECKI Punctal Plug Dilator - Double Ended

This unique design may be the only dilator you'll ever need.

**For punctum dilation.** 4 3/8" (110 mm) Length. The double ended punctal dilator features a standard size dilator on one end and a smaller diameter dilator on the other for patients with small punctae. Knurled handle is designed to increase the ease of handling and manipulation. German stainless.

Each dilator is 1 1/2" (40mm) long. The small dilator side goes from 1mm tapers to 0.12mm. The standard dilator side goes from 1mm tapers to 0.24mm. Both dilators have rounded tips.

# KARPECKI-LINDSTROM OSD Set
